

MWP-302 ANALOG PHONE

FEATURES AND BENEFITS

TYPICAL APPLICATIONS

Digital Elevator Emergency Communications Systems, Emergency Phone for new Elevators, Emergency Phone for Elevator Modernizations

MWP-302-00

MWP-302-02

- Compliant with the ADA, ASME A17 & CSA B44 2013 standards
- Call button activated
- LED indicates status (call in progress / 2-way communication)
- Full duplex analog operation
- Simple local Keypad, BTLE App or remote programming
- Equipped with self diagnostics
- Capable of receiving external calls
- Excellent voice quality
- Two on-board dry contact outputs
- Maintenance free
- Remotely upgradable to WEP-302 IP phone

Description: The MWP-302 is a panel mount, hands-free emergency elevator analog phone offering exceptional versatility and sound quality. MWP-302 phones operate in analog mode, allowing easy integration into both legacy PSTN and Webb's captive PSTN systems. The MWP-302 provides a future-proof remote upgrade path to the WEP-302 IP product. A single shielded pair is all that is required for full operation making the MWP-302 a clear choice for both new construction and retrofit applications.

Ordering Information

MWP-302-00	Base Analog (2-wire PSTN)	Local 12V DC Power
MWP-302-02	Base Analog (2-wire PSTN) + 4 local ethernet ports	Local 12V DC Power

MWP-302 ANALOG PHONE

Specification:

Size:	Standard Webb mounting plate - 4.5" x 5", overall 1.5" thick
Power:	12VDC, 2A (120VAC power supply)
